

Happenings of the Day In Capital Smart Set

Items of Interest and Importance of Past, Present, and Future Among Official and Fashionable Folk.

The most interesting social event of this afternoon will be the marriage of Miss Maria Angelica Carbo, daughter of the late minister of Ecuador, to Willis Roscoe Jones, of Baltimore, which will be solemnized at 4 o'clock at Madame Carbo's residence in 11 street.

The house is banked with palms and ferns and gay with autumn blossoms, including clusters of graceful chrysanthemums, which form a veritable bower where the bride party will stand. A stringed orchestra will play the wedding music and about 125 guests, relatives and close friends of the bride and bridegroom, have been bidden to witness the interesting ceremony. Father Mills, of St. Matthew's Church, will officiate.

Luis Alberto Carbo will give his sister in marriage. The bride will wear a lovely gown of ivory satin, embroidered with pearls. The skirt is long, after a conservative model and the long court train, hung from the shoulders, is heavily embroidered with pearls. She will wear a tulle veil, arranged in a cap effect with a chaplet of orange blossoms, and her hair will be dressed in a laivallere of pearls and diamonds, the gift of the bridegroom. She will carry a shower bouquet of white roses and orange blossoms.

The bride party will include the two sisters of Miss Carbo, Miss Anna Christina Carbo, who will be maid of honor, and Miss Maria Teresa Carbo, who will head the group of bridesmaids. The other maids will be Miss Camilla Arosmena, Miss Hortensia Coronado and Miss Mercedes Godoy, daughter of the Mexican minister to Cuba. Their gowns will be of golden yellow gros de Londres, with bodices of fine lace, set off by tiny pink rosebuds. Pink rosebuds will form a garland and they will carry bouquets of pink roses. The maid of honor will wear a frock of similar lines, fashioned of blue gros de Londres, and will carry yellow roses. Mr. Jones' brother, Paul Jones, will be best man, and the ushers will be Eustace Carbo, brother of the bride; Charles M. Goenell and Edward B. Lowndes, both of Baltimore; and Raymond J. Dunworth, of Philadelphia.

After the ceremony there will be a reception at which Mrs. Jones will receive with the bride party, assisted by Mr. Jones' mother and sister, Mrs. S. M. Jones and Mrs. Ermon Ward, who came to Washington from North Carolina, and are guests of Madame Carbo. Madame Carbo will wear a handsome costume of black satin trimmed with black lace and jet. Madame Eustace Carbo, sister-in-law of the bride, will be gowned in yellow satin tulle, bordered in red, and trimmed with black velvet. Mrs. Jones will wear a black crepe de chine gown, and Mrs. Ward's gown is of wisteria tulle trimmed with fur.

Later in the evening Mr. Jones and his bride will leave town for a wedding trip, the bride traveling in a dark blue poplin suit, trimmed with fur, with which she will wear a black velvet hat. They will make their home in Baltimore. Mr. Jones is a graduate of the University of Maryland Law School and practices law in Baltimore.

FEDERAL CLERKS GET GOOD PARADE SEATS

More Than 40,000 Officials and Clerks Gather at Federal Departments to See G. A. R.

The machinery of government was completely suspended in Washington today.

Every Government department was closed. More than 40,000 officials and employees saw the G. A. R. parade.

The Postoffice, Treasury, State, War and Navy, and Labor Department buildings were points of vantage from which thousands viewed the parade.

At the Treasury Chief Clerk Wilmoth utilized every available space to seat parade spectators.

Every window on the east side of the Department of Labor building, commanding a view of the troops as they paraded, was occupied. Employees of the other departments not in the veterans' line of march, were given points of vantage in the parade in the more fortunately located buildings.

Hardly an official was at his desk. Not in making the best of the situation, issued an executive order shutting down the machinery of government to permit employees to participate in an unofficial event.

RELIEF CORPS SETS TREES AT MEMORIAL

Two Are Planted in Potomac Park As Tribute to Valor of Union Troops.

With Lieut. Col. D. J. Palmer turning the first spadeful of earth, two trees were planted at the entrance of the Lincoln Memorial in Potomac Park yesterday afternoon by the Woman's Relief Corps to perpetuate the valor and courage of Union soldiers in the civil war.

Mrs. W. E. Andrews, chairman of the woman's citizens' committee of Washington, presided. Addresses were made by Colonel Palmer, Mrs. Andrews, Mrs. Mary E. Johnson, Mrs. Lulu E. Carlin, Mrs. Bessie B. Bowers, Mrs. Sara F. Filson, president of the Woman's Relief Corps, and the business of the several other patriotic organizations affiliated with the G. A. R.

The trees planted yesterday will be taken up and two others planted in their places by Mrs. Mamie Palmer Dorsey, president of the local branch of the Woman's Relief Corps, and Mrs. Elroy, and Mrs. Isabella Worrell Ball. Bronze markers will be placed on the trees.

Cost of Living Hits Cats.

ST. LOUIS, Sept. 29.—The high cost of living virtually has depopulated Hotel Kat, one of the most exclusive cateries in the world. Hotel Kat is a local institution conducted by Miss Lena B. Patten. It is a two-story brick dwelling equipped with individual rooms for the occupants and a concrete courtyard in which the tables back in the summer.

Miss Patten has disposed of all but nine of her tenants. She had 150 at one time, but she explains the expense of providing steak for some of them, fish for others, and vegetables for the strict vegetarians became so great as the cost of food mounted that she had to find new homes for her pets.

Anticipating the rush, special officers have been sent to Washington by the Southern railway, the Pennsylvania, and the Baltimore and Ohio.

Not less than 25,000 visitors came from Baltimore. Both the Baltimore and Ohio and Pennsylvania railroads ran special trains. The Washington, Baltimore and Annapolis railroad and every car loaded to capacity. Several thousand Baltimoreans motored over this morning.

At least 500 Bostonians arrived this morning.

While no difficulty has been experienced so far by the Union Station, the big rush is expected to come late this afternoon and tonight, when many of the visitors who have been arriving during the last three days are expected to leave town.

U. S. READY TO KEEP OUT CHEAP FOREIGN GOODS AFTER WAR

Secretary Redfield Announces Nation Is Prepared to Retain Standards Here.

By R. J. BENDER.
(Copyright, 1915, by the United Press.)

The United States is not to be made the dumping ground for cheap foreign products after the European war has ended. When the great economic revolution sets in, it will find this country prepared to prevent the unloading of low priced goods from Germany and other countries upon these shores.

"The question is no longer whether we shall prevent this or not—but how we shall prevent it."

With this statement today Commerce Secretary Redfield outlined briefly what this country can do toward preventing at least one of the exigencies which will face American manufacturers at the close of the war.

Tariff Not the Answer.
And from the plans which are now being threshed out by Redfield and Trade Commission Chairman Davies, the tariff will play a very small part in any possible economic readjustment.

"In fact," Mr. Redfield said, "the issue should be met from an ethical standpoint—not from an economic standpoint at all."

"To increase the tariff might seem to be the simplest and easiest way, but that merely results in American people paying more money for the product. This isn't necessary. We have all the machinery and a goodly number of laws to handle the situation on an ethical basis entirely."

Consul Must Approve.
"At the present time no goods can be shipped to this country from any foreign country without a manifest signed by our consular agent in that country, approving the cargo. If foreign countries attempted to ship goods into this country at a greatly reduced price, our consular agents could demand the right to investigate the means of producing the commodity to see if the manufacturer was selling at a lower price than he should."

"If the agents were refused the right to make such an investigation the United States could then refuse to sign the manifest, and the products could never leave the ports for the United States."

There would be the chance of course that some goods might get by the vigilance of the American agents. To meet this situation Congress could pass a law making it illegal for anyone in the United States to buy or sell goods shipped from the foreign country to undersell American manufacturers.

Seems To Favor Clause.
From this it would seem that Secretary Redfield will favor an anti-dumping clause incorporated in the present Underwood-Simmons act, as the best step for Congress to take at its next session.

It is understood that Redfield, Davies, the President, and others who have held a number of conferences upon the question of industrial conditions in the United States, will not be persuaded to favor any important changes in the present tariff, other than indicated, unless it be the suspension of the free sugar schedule which would become effective May 1, 1916, and the ground for the suggestion is the persistent intimation that one hears in various official quarters. One thing is clear, according to these intimations, however, if the sugar tariff is continued it will be only temporarily, and for the purpose of meeting a revenue emergency created by the war.

Snippings Mean Riches To French Army Tailor
PARIS, Sept. 29.—Who in the French army is making the biggest money out of the war? Answer, the regimental master tailor. He draws \$1,000 a month extra, merely from the sale of the clippings of regimental cloth.

This fact was brought out at a court-martial on an orderly in the service of a regimental tailor.

"Good business," exclaimed the president of the court.

"Incredibly!" ejaculated the crown prosecutor.

"Why, General Joffre doesn't make that much!" observed another lawyer in the case.

"At that rate," said another lawyer, a lightning calculator, "the 400 master tailors of the army have pocketed \$5,000,000 from the state treasury in the last twelve months."

The orderly was sent to prison for a year. The regimental tailor got off free, as the clippings are a perquisite of his office.

Home-comers and new-comers are invited to try this delightful coffee.

Party Leader 50 Years, Was Britisher All Time
SABETHA, Kan., Sept. 29.—After more than half a century of party leadership in his township, George Root discovered that he was still a British subject. He has lived sixty years in the United States, and fifty-eight of them in Nemaha county. He is a Republican partisan and has attended national conventions of his party.

His disfigurement is fully enjoyed by the boys of the past half century over whom he has so long lorded. At seventy-eight he is hale and greatly beloved.

Root has just taken out his naturalization papers, with Jim Thompson, another old-time Republican, who has dwelt and voted in Nemaha county thirty-three years.

Use Coconut Oil For Washing Hair
If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulitified coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, and easy to manage.

You can get mulitified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

GAFFNEY RECALLED AS CONSUL AT MUNICH

State Department Asks Resignation of Supposed German Sympathizer.

Resignation of Consul General Thomas St. John Gaffney, at Munich, has been asked by the State Department at the direction of the President.

This action was taken following many complaints that the consul general, charged as he was with the conduct of British commercial interests in Bavaria, was manifesting an anti-British attitude that placed the Administration in an embarrassing position.

Alleged partisanship toward German interests in expression and action had been given widespread publicity and from the situation being called to the attention of the State Department, it was determined to invite his withdrawal from the consular service.

Two of Eleven Entombed Miners Brought Out Alive
POTTSVILLE, Pa., Sept. 29.—William Watkins and George Hollywood, two of the eleven men imprisoned by a rush of water and coal, in the Foster tunnel of the L. C. & N. Company mine were rescued alive today. It was the opinion of the company officials that all the entombed men would be rescued.

Union Pacific Carries 8,951,364 and Kills None
OMAHA, Sept. 29.—During the fiscal year ending June 30, the Union Pacific railroad carried 8,951,364 passengers without the loss of a single life.

This has been a result of the "safety first" movement, which has enabled a number of American railroad systems to make clean scores. The Union Pacific officials say that the real credit belongs to the employees.

Veteran Prostrated.
El Southard, sixty-three, Bordentown, N. J., a member of Kearney's First New Jersey Brigade, was prostrated while in New Jersey avenue, between 5 and 6 streets northwest, this morning. He was treated by physicians at Casualty Hospital, and removed to his room at 513 Thirteenth street northwest.
